Atlantis

Atlantis is Embelton's latest Hybrid floating floor, sitting proudly alongside our established Resilience and Aqua-Tuf ranges.

Developed for the cost-conscious homeowner, Atlantis is perfect for apartments and homes, with 8 beautifully designed Australian Timber and Oak colours to create the perfect statement floor for your home.

Providing the perfect balance of stability and versatility, Atlantis can be laid over almost any type of level subfloor with minimal preparation. The rigid planks help hide any imperfections underneath whilst the stable limestone core allows for fewer expansion breaks resulting in longer, uninterrupted runs.

Supplied with a pre-installed noise reduction underlay, Atlantis planks are easy to handle during installation. The tried and tested drop lock profile is quick and easy to install with no messy glues required, allowing you to walk on your floor the same day it is laid.

Peace of Mind Guarantee

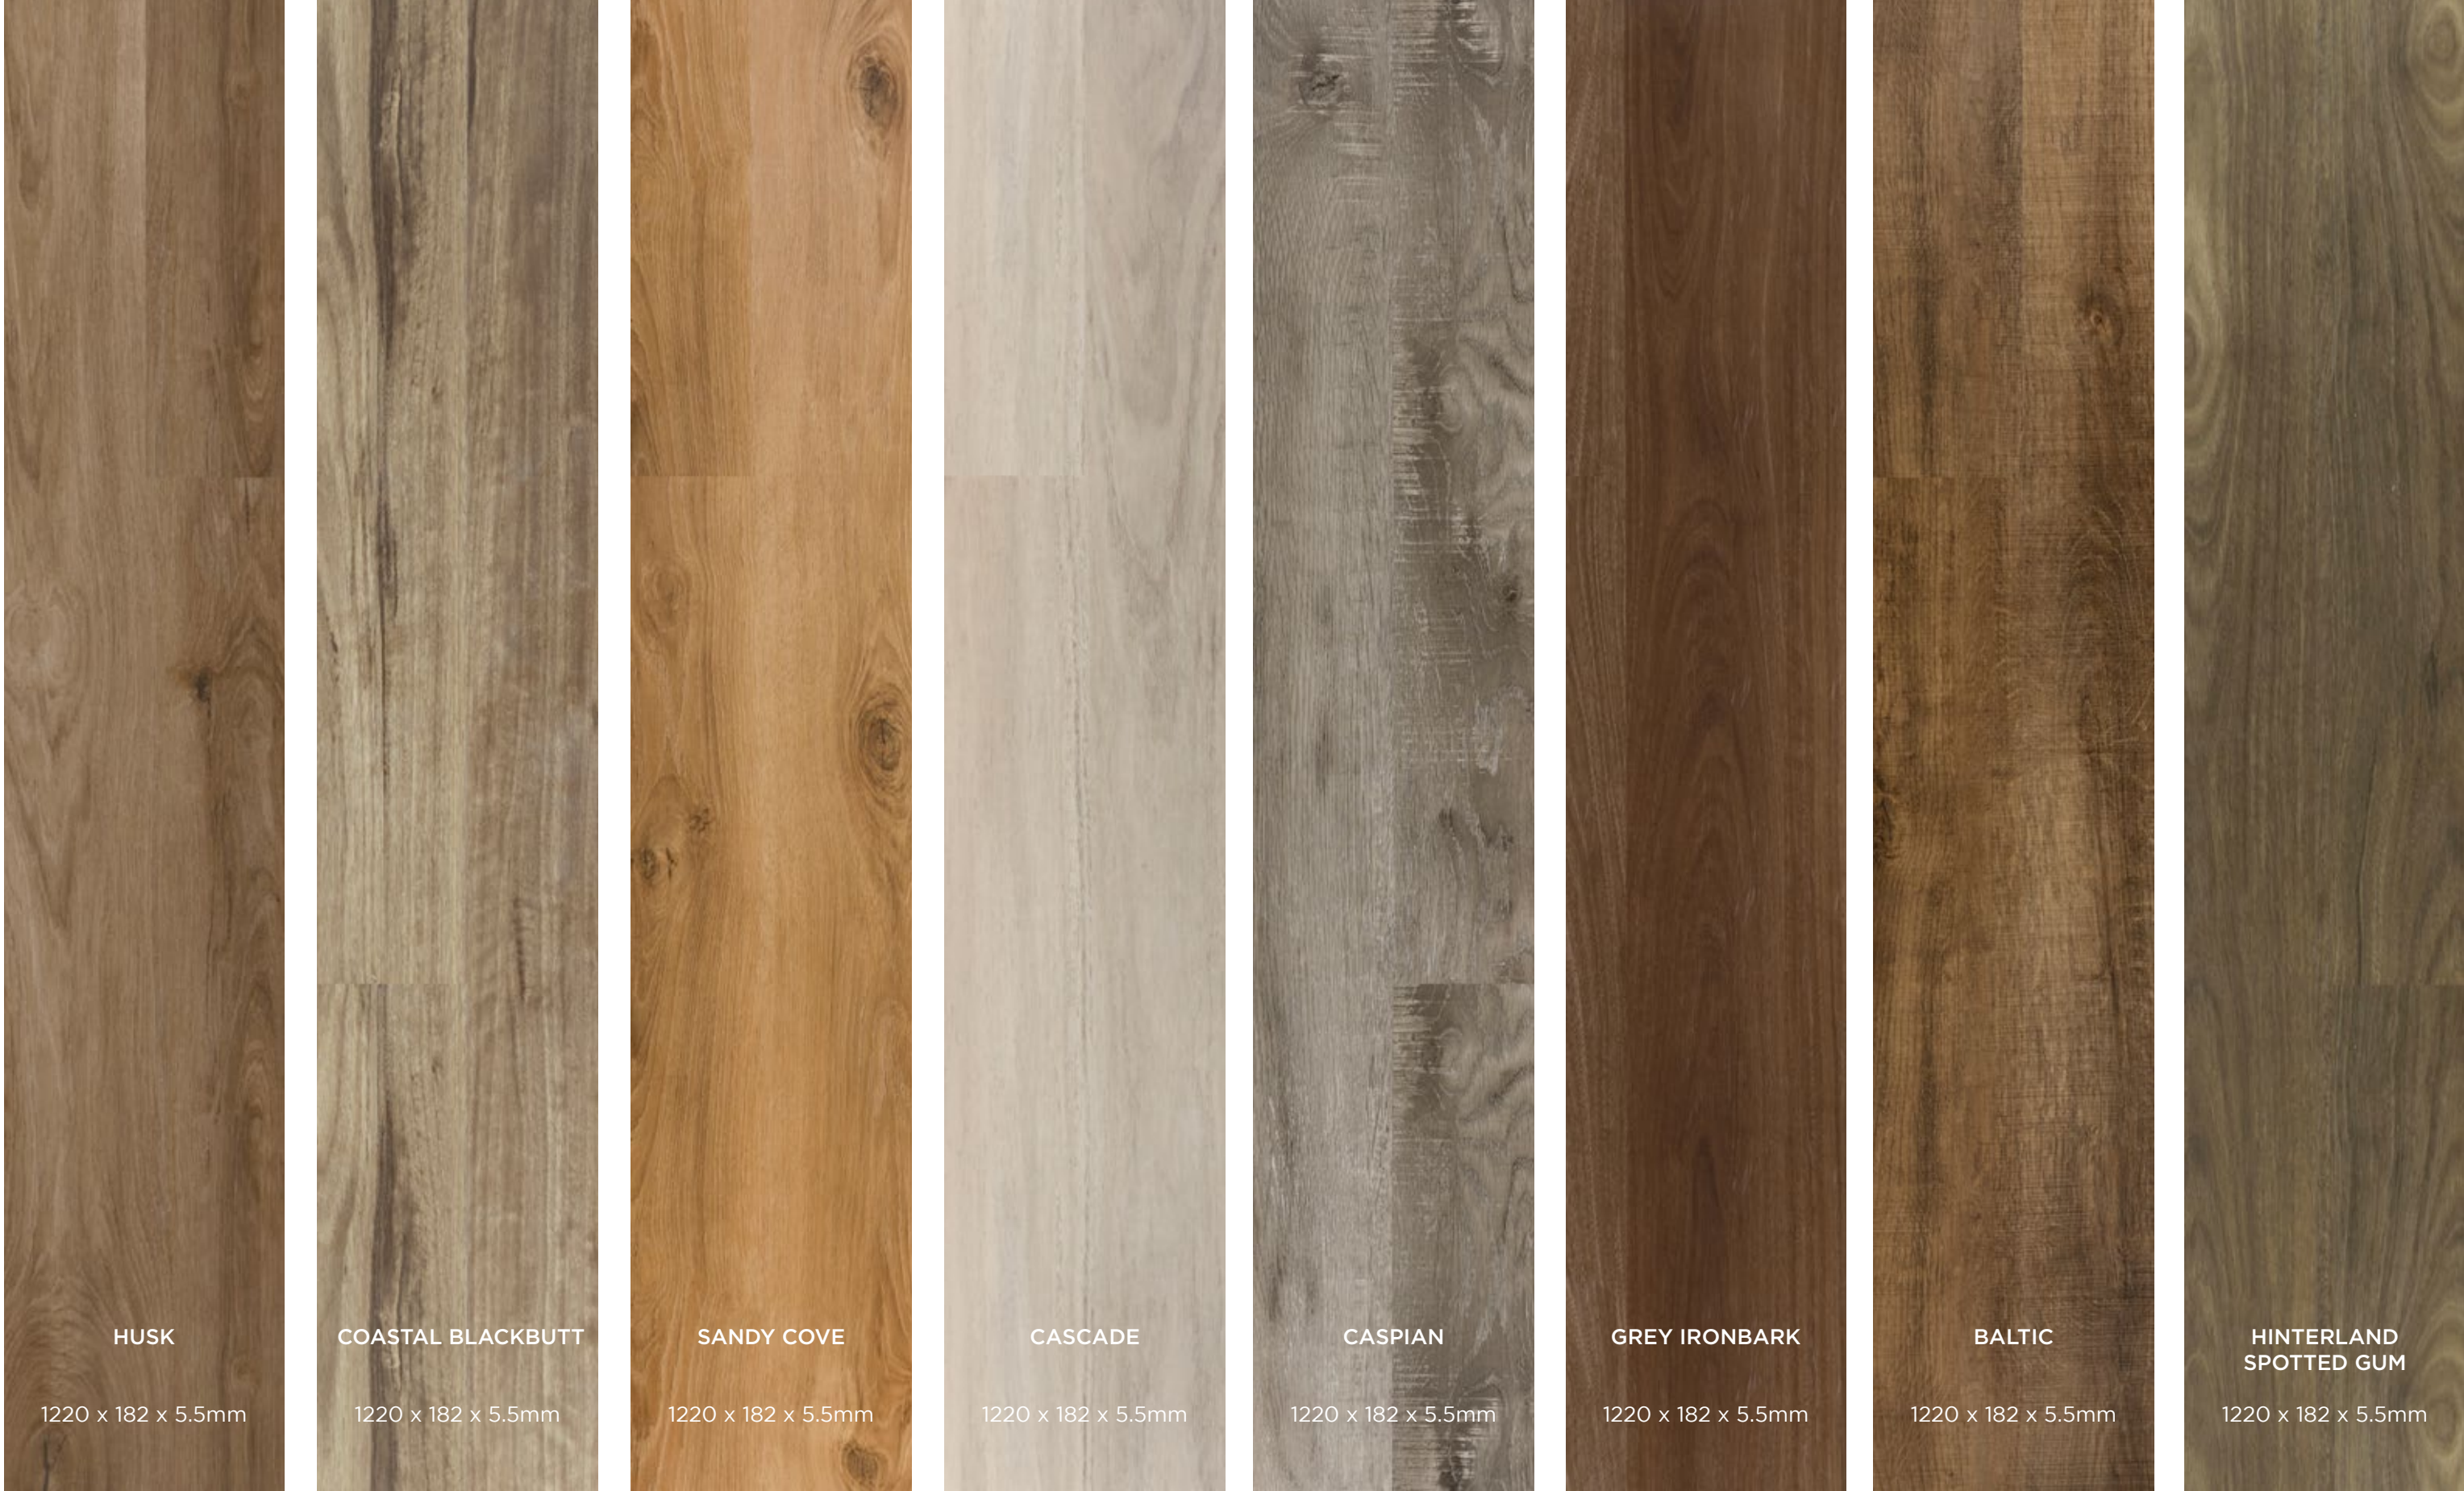

Embelton's After Sales Customer Care Support is second to none. Backed with a full structural warranty, not only will Atlantis look great on your floor, you'll have peace of mind knowing that your floor will last for years to come.

Care & Maintenance

Caring for your Atlantis floor is easy. Vacuum or sweep the floor to remove dirt and debris, and use of a damp mop for regular cleaning is suitable. For preventative care, entrance mats and rugs in high wear areas should be considered, together with felt protectors for furniture and appliance legs.
